Professional Summary

CSE graduate with a Data Science specialization and a good grasp of programming and data analysis. Eager to learn, take on new challenges, and contribute to a growing team. Looking for an entry-level role where I can build my skills and grow my career..

Experience

Data Engineer Intern *Feb 2026 – May 2026*
InternAge Remote

- Designed and orchestrated automated data preprocessing and transformation workflows using dbt and Snowflake to process large-scale datasets efficiently.
- Wrote optimized SQL queries to extract, clean, and analyze high-volume structured datasets, reducing query execution latency.
- Built and maintained scalable ELT pipelines with Apache Airflow and cloud platform components, ensuring robust and reliable data ingestion.

Projects

Verichain – GenAI-Powered Blockchain Evidence Manager *Hyperledger Fabric, IPFS, Gen-AI, Python*

- Architected a decentralized, GenAI-powered evidence management system with AI-verified chain of custody, achieving 100% immutable record tracking via Hyperledger Fabric and IPFS.

BuildConnect – Construction Marketplace Platform *React.js, MycSql*

- Engineered a multi-tier marketplace with relational database design and role-based access control (RBAC), streamlining contractor verification and hiring workflows between property owners and contractors.

Food Delivery Data Engineering Pipeline *AWS S3, Snowflake, dbt, Airflow*

- Built an end-to-end data pipeline using Medallion Architecture on AWS S3, Snowflake, and Apache Airflow; used dbt for transformation and data-quality testing to produce analytics-ready datasets for orders, restaurants, revenue, and deliveries.

Technical Skills

Languages	Python, Java, SQL
Data & ETL	Snowflake, dbt
Web & Tools	React.js, GitHub, Postgres, MongoDB, MySQL
Platforms	AWS, Linux, Windows
Software Concepts	Data Structures, Agile, OOP, DBMS, SDLC, STLC, Rest APIs.

Education

St. Joseph Engineering College, Mangalore, India *2022 – June 2026*
B.E., Computer Science Engineering (Data Science) GPA: 8.74/10

Vivekananda College, Puttur, DK, India *2020 – June 2022*
Pre-University Course (PCMB) 89%

Certifications

- **Data Analysis with Python** – freeCodeCamp, 300-Hour Developer Certification *Mar 2025*
- **Data Science with Pandas Workshop** – IEEE SJEC Student Chapter *Oct 2024*
- **UI/UX Workshop** – ICBS Department, St. Joseph Engineering College *Jan 2024*

Leadership & Volunteer Experience

- **NSS Unit Member & Volunteer**, Tiara & Milan (2023, 2024) – Managed event logistics, public relations, and cross-functional team operations for college festivals.
- **3rd Place, VTU Mangalore Zone Kabaddi Tournament** (2023) – Competed at the zonal level as part of a disciplined team, sharpening resilience, quick decision-making, and collaboration under pressure.
